## DETAILED ACTION

### *Election/Restrictions*

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-9,29-35,37 drawn to an angled crusher.

Group II, claim(s) 10,11,22-28 (depending on dependices) ,36, drawn to an adjustable anvil.

Group III, claim(s) 12-21,22-28 (depending on dependices), drawn to an anvil with cavities.

The inventions listed as Groups I,II,III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the special technical feature of claim 1 is the capability of angling the entire crusher. The special technical feature of Group II is the angling of an anvil. The special technical feature of claim 3 is the specific shape of the anvil.

A telephone call was made to Mr. Hill on 1/25/02 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
